Watch Icon Template 1.0

Expressive Media
expressivemedia.co.uk

Thank you for downloading my Apple Watch Icon Template. This template will make it super easy, in a professional automated way to create or present your icon designs for the Apple watch. With using the Template and the custom Photoshop actions combined, your icons will be exported to the exact @2x size required.

How to use this Template

Open up your Apple Watch Template in Photoshop. In the layers panel you will see a Smart Object named **'Edit Me & Save'**. Double click the icon on the layer, which will open the icon.psb layer into a new document. You will now see a square version of the in the new document canvas. Use this canvas to create your amazing icon design, insert anything you want here, I have included the standard iOS colours and also the icon layout guide for your reference. When your finished designing, hit File > Save. Then close the icon.psb file to bring you back over to the main template again. You will now see all the icons have been automatically updated with your new design.

Photoshop Action

Now you have created your awesome icon design, you now need to export your icons ready to submit with your new watch app. With Photoshop still open, simply double click the Action file which is named **' Watch_Icon_Template_1.atn'** from the folder you downloaded with the Apple Watch Template. The action will automatically install into your Actions panel in Photoshop. Alternativly, open up your Actions Panel (Window > Actions) then click the arrow at the top right of the Actions panel to reveal its menu, and select **'Load Actions'**.

1. If you are saving your icons for the App store, hit the ' Watch Square Icon' Action, then hit play...
2. If you are saving your icons to create mockup icons for other designs, hit the ' Watch Circle Icon' Action, then hit play... and your done!

Note: you must use the square icons actions if exporting to the app store, Apple's system applies the circular mask automatically to the icons.

License

Apple Watch Icon Template is completely royalty free to use however you want, personal or commercial. All i ask is that you please don't redistribute the template itself and to share it with everyone!

Disclaimer, Bugs & Suggestions

If you find any issues, bugs or problems with the file, please get in touch to let me know. I have tried to make the whole file as simple as possible, but if you have any suggestions contact **hello@expressivemedia.co.uk**
